**2017-2018**

In April 2013, the Government announced new funding of £150 million for physical education (PE) and sport. The funding should be used to improve the quality and breadth of sport provision. Funding is allocated to all maintained and state-funded schools with primary phase children.

**Purpose of funding**

Schools must spend the additional funding on improving their provision of PE and sport, but they will have the freedom to choose how they do this.

Possible uses for the funding might include:

- hiring specialist PE teachers or qualified sports coaches to work with primary teachers when teaching PE
- supporting and engaging the least active children through new or additional Change4Life clubs
- paying for professional development opportunities for teachers in PE and sport
- providing cover to release primary teachers for professional development in PE and sport
- running sport competitions, or increasing pupils' participation in the School Games
- buying quality assured professional development modules or materials for PE and sport
- providing places for pupils on after school sports clubs and holiday clubs
- pooling the additional funding with that of other local schools.

We have been allocated £9200 for our school for the academic year 2017 -18
